DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Species I in the reply filed on 7 October 2005 is acknowledged.

Claims 8-13, 20-25, 30 and 31 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Species II, III and IV, there being no allowable generic or linking claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5, 15, 16, and 26 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Brugman et al., U.S. 6,192,680.

Regarding claims 1, 15, 16, 26, Brugman et al. discloses a first hydraulic cylinder (13; col. 4, lines 37-43), an actuator device (30,31) and isolated supply (28), a hydraulic line (44) intermediate the first hydraulic cylinder (13) and the hydraulic actuator (R,H).

As to claim 2, Brugman et al. discloses a subsea locale, the actuator and safety valve (col. 3).

As to claim 5, Brugman et al. discloses a bypass control valve (32).

As to claim 27, Brugman et al. discloses an operation valve (48) in the hydraulic line (44) placing the actuator (R,H) in communication with the first cylinder.

Allowable Subject Matter

Claims 3, 4, 6, 7, 14, 17, 18, 19, 28 and 29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose or suggest all the claimed subject matter including a gear assembly.

The prior art of record does not disclose or suggest all the claimed subject matter including hydraulic fluid supply reservoir.

The prior art of record does not disclose or suggest all the claimed subject matter including the second chamber.

The prior art of record does not disclose or suggest all the claimed subject matter including a resupply line.

The prior art of record does not disclose or suggest all the claimed subject matter including the fluid being seawater.

The prior art of record does not disclose or suggest all the claimed subject matter including the return spring.

The prior art of record does not disclose or suggest all the claimed subject matter including an electric motor.

The prior art of record does not disclose or suggest all the claimed subject matter including the control valve between the hydraulic cylinder and actuator.
